About GATIK

Gatik is the brain-child of our Founder and CEO Mr. Gopi Prasad K. Having close to 25 years of experience managing undergraduate institutions, he felt the need to diversify into the +2 space in the year 2016. Being a parent himself of a high school child, he strongly felt there's a need for a stress-free learning environment that focuses not only on ranks but also on overall development of the child. After all the necessary groundwork, Gatik was officially launched in 2018 along with Mr. SB Vikram and Mr. Rahul Amin on the board. Since then, Gatik had been focusing on choice based education nurturing and helping students develop and enhance their life skills. An individual should be prepared for the tough challenges he/she is going to face in the future and Gatik helps lay a foundation to face such challenges for students in the age group of 15-17.

Open spaces and environment friendly green campus provide the much-needed relief to the students and improve their learning abilities.

Some of the core values that Gatik believes and observes are

- Human connect: Human connect is a very critical element to ensure an all-round development of the child. At Gatik, teachers are encouraged to mentor students depending on the skill set of each child rather than following a one-size-fits-all approach.
- Learn from failures: We build an environment where the child is encouraged to learn from failures. This helps them to develop a strong personality so as to face the real life challenges.
- Organization Culture: Entire Team Gatik shares the passion of its Management Team by giving utmost importance to the organization's core values of Integrity, Social Responsibility, Innovation, Creativity and Honesty.

It is surely a long way to go, but we at Gatik are sure that the team is on the right path and focused.

SMALL BATCH SIZE OF 30

At Gatik, we feel that a positive connection between students and teachers is vital. Our small batch sizes, ensure that our teachers are always available to address students' individual needs and provide the required guidance.

“STRESS - FREE LEARNING” ENVIRONMENT

State of the art classrooms, indoor and outdoor games facilities, seminar sessions, and a well-equipped library enable learning to happen in a stress-free environment.

STUDENT SERVICES: WE ARE ON YOUR SIDE

At Gatik, students will have regular access to in-house counselling. They will frequently meet their advisors and discuss their progress. They will be provided an opportunity to make suggestions, discuss any grievances and make short term plans to accomplish the goals. The Student Services department will also guide students with the Application Process for competitive exams and eventually provide support to students with admission procedures into various Universities.

REAL TIME FEEDBACK FROM THOSE WHO MATTER

We understand the importance of assessments both for students and teachers. Just as assessments provide students with insights into their performance and motivate them to improve, they also enable teachers to determine if their instruction has effectively met the learning objectives of the subject. Hence, at Gatik, we continuously evaluate students using multiple touch points such as group discussions, presentations, quizzes, seminars, debates etc.

BEYOND THE CLASSROOM AND MORE

We motivate students to be ever curious and our values are such that they not only help students to understand and work on their hidden potential but also to become well rounded and responsible global citizens. We conduct several activities through BYTC sessions that give students a platform to discover themselves. The activities aim at building problem solving skills and inculcating team spirit, helping the students learn to collaborate, cooperate, communicate, and to think out of the box.

Career Orientation Programs help students identify what aspects of a career excite them. Industry visits allow them to see how things work at the grassroots level. Personal Excellence sessions are designed to help them with their social and emotional development.

MPC

AI for those who seek to build machines that act and think like humans.

In our MPC-Engineering / MPC-AI Program, students are prepared for Maths, Physics and Chemistry, IPE curriculum and competitive track coaching for engineering exams like JEE / BITSAT / EAMCET. In addition to this, students can opt and choose to spend two years acquiring the basics of Programming & Artificial Intelligence. They are introduced to concepts in Linear Algebra/Statistics along with Advanced Machine Learning and Programming Languages like R/Python. Our customized syllabus is crafted with the intention to improve student curiosity, cultivating creativity and discovering the basics of Artificial Intelligence. In turn, these skills help them chart a career in the field of AI.

NEET / EAMCET

BiPC

A Profession where Knowledge, Power & Heart come together.

Two Year Integrated Program for NEET and EAMCET is offered with a combination of BiPC (Biology, Physics and Chemistry). This is for those students who are interested in Medicine and want to help mankind by saving lives. Students would be prepared for the Common Entrance Exams like NEET and EAMCET for admissions into Medical Colleges . In addition to this, our BiPC-NEET students will also be exposed to New Age careers.

RESIDENTIAL LIFE @ GATIK®

**We strongly believe residential facility should be
“A HOME AWAY FROM HOME”.**

There are separate boarding facilities for boys and girls. The boys' and girls' hostels are further housed on the basis of their group selected in Intermediate.

Avani Lekhara Girls Block

The Avani Lekhara Block is situated within the main campus, with a capacity for 175 students. Girls have access to all common facilities within the campus, and rooms are air-conditioned with two attached baths on a four-sharing basis.

Late CDS Bipin Rawat Boys Block

The Late CDS Bipin Rawat Block is located in an exclusive 1.5-acre campus near the main campus, accommodating up to 300 students. Air-conditioned rooms with attached baths are provided on a three-sharing basis.

Students are given a day schedule starting 5AM everyday until 10PM, which has to be followed by every student. Day starts with fitness regime followed by study hours for students needing attention.

An Overview

- Rooms are designed to give students comfortable personal living spaces and give them a sense of a home away from home.
- Rooms are furnished with all essential amenities including cot, wardrobe and a study table with chair.
- Girls hostel block has separate study rooms at ground floor which are further segregated on basis of their groups.

- Residential block has a common lounge for students to hang-out. There is a recreational lounge in ground floor equipped with some indoor sports. Boarders can also look forward to outdoor sport activities like Volleyball, Basketball & Badminton.
- A robust round-the-clock security system, with CCTV surveillance, keeps the campus safe and secure.
- We have a tie-up with nearby hospitals to handle any medical emergencies and are equipped with a vehicle for transportation.

GATIK INTERNSHIPS

As a part of the training course, students will be involved in various Community Service Activities and offered Internships that will help them gain hands on experience to serve and understand the society better.

”

I had good experience in gatik college. The way they treat students and give freedom to students and pushes us to express ourselves is great. The experience what we got is unforgettable. Teachers in college are so friendly and they always helps us to give our best.

- Rishik Javvaji

”

We are very pleased with Gatik's approach to student care. Their education system is entirely stress-free. My son is currently studying there, and we are extremely satisfied with the progress he has made so far. The staff's motivation and support enable all students to pursue their dreams successfully.

- Bhaskara Rao

”

Hi I am brother of Srishanth who is studying in Gatik. Gatik Junior College is truly the best junior college in Hyderabad. The integrated programs in AI, Engineering, Law, medicine, CA etc definitely give the students an edge. The teachers are super supportive, making sure we're all set for what's next. My brother gained so much here and felt prepared for his future. For anyone looking for a solid start, Gatik is the way to go!

- Srikanth Reddy

”

My son studied MPC-Design at Gatik and this program has taught him so much. I think the best part is that learning is stress free. Teachers here encourage to explore new aspects. They teach how to think not what to think. I would definitely accept that Gatik as one of the best MPC colleges in Hyderabad. For anyone looking to excel in their studies and beyond, Gatik Junior College is the ultimate destination. It's more than a college; it's a pathway to success.

- Praveen K

”

Hi! I'm mother of Rupesh, studying BiPC-NEET at Gatik Junior College. I have to say, enrolling here was a pivotal moment for me. Gatik isn't just one of the best BiPC colleges in Hyderabad; it's a place where learning transcends traditional boundaries. The campus vibe is incredible. Proud to be a part of Gatik.
